

MD. JAMIL HASAN

Full Stack Developer

SUMMARY

My development journey starts with my personal interests on coding back in 2019. After few years gap, I have completed level-1 course from PH Hero. I started working again in BPG from January, 2024 as Front End Developer and now working as React Developer in FreelanceHub (BD) Ltd. With Job I am about to complete level-2 course from PH Hero.

EXPERIENCE

Freelance Hub (BD) Limited

React Developer: May, 2024 – Now (7 months...)

- My responsibility is to develop modern, stylish, user friendly and interactive React web application from scratch and handle api to make the application dynamic.
- Make raw html and bootstrap application where interactivity and api handle done by raw javascript.
- I worked in school management, telemedicine service, pharmacy management, HRM etc. Here.

Business Partner Group

Front End Developer: Dec, 2023 – April, 2024 (5 months)

- My responsibility is to make user-friendly React application from html or figma in such a way that it is ready to be dynamic with backend server and database through Api.
