## SUMMARY

My development journey starts with my personal interests on coding back in 2019. After one year I have been working as full responsive html site developer. After few years gap I started learning again in 2023 and now working as front end developer of react.

## EXPERIENCE

### Business Partner Group

**Front End Developer:** Dec, 2023 – Present

- My responsibility to make full responsive, cross browser compatible tailwind site from figma files or react site from html
- Some Projects Link: [business-post](#), [shop-saver](#), [Lions-group](#)

## PROJECTS

### MCH School – School Management Website [Live Link](#), [Code Link](#), [Server Code](#)

- It is a school management app where students can admit and see their profile.
- Student Can admit filling up admission form and see their profile after getting admitted.
- Students can purchase online courses by searching and filtering. Filter implemented by redux.
